70431 74511 | darshanchavda1505@gmail.com | [LinkedIn](#) | [GitHub](#)

Java Backend Developer with hands-on experience in **Java, Spring Boot, Spring Data JPA, Hibernate, REST APIs, and MySQL**. Experienced in building **layered backend applications, DTOs, validation, pagination, exception handling, and Spring Security**.

TECHNICAL SKILLS

Languages: Java, Python, SQL

Core Java: OOP, Exception Handling, Collections Framework, Stream API, Multithreading

Spring: Spring Framework, Spring Boot, Spring MVC, Spring Data JPA, Spring Security

JPA / Hibernate: Hibernate ORM, JPA, Entity Relationships, JPQL, Criteria API, Transactions

Backend: REST APIs, Layered Architecture, DTOs, Validation, Pagination

Databases: MySQL, PostgreSQL

Tools & Others: Git, GitHub, Postman, Swagger/OpenAPI, IntelliJ IDEA

EXPERIENCE

Java Intern

May 2026 – July 2026

ProjectTree

Remote

- Developed backend modules for an **Enterprise Asset Management System** using **Java, Spring Boot, Spring Data JPA, Hibernate, and MySQL**.
- Built REST APIs using **layered architecture, DTOs, validation, pagination and sorting**.
- Implemented **JPA Specifications** for dynamic filtering and **Spring Security** for role-based authorization.

Java Automation Trainee

Dec 2024 – Mar 2025

SRKay Consulting Group

Surat, Gujarat

- Automated UI and REST API testing using **Java, Selenium WebDriver, and TestNG**.
- Analyzed API responses, test results, and application logs to identify defects and support debugging.

PROJECTS

Enterprise Asset Management System | *Spring Boot, Spring Security, Hibernate, MySQL*

[GitHub](#)

- Developed an enterprise application for managing the complete asset lifecycle including **inventory, allocation, maintenance, transfer, and retirement**.
- Implemented **REST APIs, layered architecture, DTO mapping, validation, global exception handling, pagination, sorting, and soft deletes**.
- Used **JPA Specifications** for dynamic filtering and Spring Data JPA for repository and persistence operations.
- Implemented **Spring Security role-based authorization** and integrated Thymeleaf for the web interface.

AI-Powered House Price Prediction System | *Spring Boot, FastAPI, Scikit-Learn, PostgreSQL*

[GitHub](#)

- Developed a **microservice-based application** where a Spring Boot backend communicates with a Python FastAPI machine learning service.
- Built REST APIs for **house price prediction and prediction history** using Spring Data JPA and PostgreSQL.
- Implemented **inter-service communication, global exception handling, and Swagger/OpenAPI documentation**.

EDUCATION

B.Tech Computer Engineering

Chandubhai S. Patel Institute of Technology (CHARUSAT)

CGPA: 8.31 (Distinction)

Anand, Gujarat

Oct 2021 – May 2025

CERTIFICATIONS

Java Programming | Great Learning

Google UX Design Professional Certificate | Coursera

MongoDB MOOC Certification | MongoDB

BAPS Youth Fellowship Programme (6-Month Residential)

Focus on Selfless Humanitarian Service, Ethical Decision-Making, and Spiritual Studies

June 2025 – Nov 2025
